(Doing it for our Ancestors)

Alberni Indian Residential School Project

**Starting Tuesday
April 5, 2022**

Warning: The following may be triggering for some. Support is available to you through our projects support Linda Pelech, NTC and other resources listed in the flyer included in the post.

The ?uu?atumin yaqck^wiimitqin (Doing it for our Ancestors) project team has selected a partner to carry out the task of Aerial imaging over identified Tseshaht Lands. The LiDAR drone company is called 'Spitfire Drone Survey.'

The LiDAR drone work is the first of two land imaging tasks for the Alberni Indian Residential School (AIRS) project. The imaging being done will be carried out with compassion and respect for our community and lands. Their team is committed to ensuring the communities privacy and safety is protected while the drone is in flight.

Drone flight work will begin on **April 5, 2022 in the morning** and continue through the week. Members may notice a buzzing sound of drones flying overhead. We aim to hold safe space for those who need it through this time.

If you have any questions or have information about AIRS, please contact Melissa Gus, Coordinator
melissa.airs@tseshaht.com or 250-724-1225
